DETAILED ACTION
REASONS FOR ALLOWANCE

Claims 1-21 are allowed.

The following is an examiner's statement of reasons for allowance: a curved assembly line, which includes an upper and lower platform and lower carrying frames where the end frames are made up of alternating carrying elements one of which has a concave end faces on both sides of the plate and the other convex end faces on both sides of the plate in the longitudinal direction in combination with the rest of the claim language is not taught or fairly suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicants disclosure. The following are cited to show the art with respect to curved assembly conveyors: Mojonier (2,689,638), Whitney (2,848,102), Proske (5,201,407) and Kay (1,973,750).
